PROFESSIONAL SUMMARY

Computer Science undergraduate seeking a **Software Engineer / Full Stack Developer** role with hands-on experience in Java, JavaScript, Node.js, Express.js, React.js, MongoDB, REST APIs, and JWT Authentication. Strong foundation in Object-Oriented Programming, Data Structures, Algorithms, Database Management Systems, and API development. Passionate about building scalable backend applications and continuously learning modern web technologies through practical projects.

PROJECTS

• Course Selling Application — Full Stack

- Developed a full-stack course selling platform using React.js, Node.js, Express.js, MongoDB, and JWT Authentication, with separate user and admin authentication.
- Built RESTful APIs and responsive React interfaces for user registration, login, course browsing, course management, and purchases.
- Implemented role-based authorization, protected routes, password hashing with bcrypt, input validation, and structured error handling.
- Developed an admin interface for managing courses and a user interface for browsing and accessing purchased courses.

• Workflow Orchestration & Dependency Optimization

[Live Demo](#)

- Designed and developed a workflow orchestration platform using Java, Spring Boot, Spring Data JPA, REST APIs, MySQL, and Backend Development principles.
- Built modular RESTful APIs for workflow creation, dependency resolution, execution monitoring, and database integration following Object-Oriented Programming and Software Engineering best practices.
- Applied Data Structures, Algorithms, API Design, and scalable architecture to optimize workflow execution.

EXPERIENCE

Web Development Intern

2024

Connect Infosystems, Chennai

- Completed a Full Stack Web Development internship, gaining hands-on experience with HTML5, CSS3, JavaScript, and the fundamentals of React.js.
- Built responsive web pages and small practice applications, implementing basic UI components, layouts, forms, and JavaScript interactions.
- Learned the fundamentals of frontend development, component-based design, React Hooks (useState, useEffect), and the basics of client-server web application architecture.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C

Front-End Development: React.js, HTML5, CSS3, Responsive Web Design, JavaScript

Backend Development: Java, Spring Boot, Spring Data JPA, REST APIs, Express, Node.js, MongoDB

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub

Core Concepts: Full Stack Development, Software Engineering, Object-Oriented Programming, Data Structures, Algorithms, Database Management Systems, API Development, Problem Solving

EDUCATION

B.E. Computer Science and Engineering

2023 – 2027

Saveetha Engineering College

CGPA: 8.45/10

St. Joseph Matriculation Higher Secondary School

2023

Villupuram, Tamil Nadu

Higher Secondary: 94%

CERTIFICATIONS

- Oracle Database SQL Certified Specialist
- Mastering Java + SpringBoot: REST APIs and Microservices
- Tata Data Visualisation: Empowering Business with Effective Insights – Forage (July 2026)

ACHIEVEMENTS

- Solved **200+** LeetCode problems in Java, strengthening Data Structures, Algorithms, and competitive programming skills.
- Hands on experience with full-stack development projects using Node.js, Spring Boot, React.js, SQL, REST APIs, and backend development.
- Demonstrated strong analytical thinking, debugging, software development, and object-oriented design through academic projects and internship experience.
